PASSED AUDITS (16)	Show
--------------------	------

Accessibility

These checks highlight opportunities to [improve the accessibility of your web app](#). Automatic detection can only detect a subset of issues and does not guarantee the accessibility of your web app, so [manual testing](#) is also encouraged.

ARIA

<div><div></div></div> Elements with an ARIA <code>[role]</code> that require children to contain a specific <code>[role]</code> are missing some or all of those required children.	▼
<div><div></div></div> <code>[aria-hidden="true"]</code> elements contain focusable descendents	▼
<div><div></div></div> Uses ARIA roles on incompatible elements	▼

These are opportunities to improve the usage of ARIA in your application which may enhance the experience for users of assistive technology, like a screen reader.

CONTRAST

<div><div></div></div> Background and foreground colors do not have a sufficient contrast ratio.	▼
--	---

These are opportunities to improve the legibility of your content.

TABLES AND LISTS

<div><div></div></div> List items ( <code>&lt;li&gt;</code> ) are not contained within <code>&lt;ul&gt;</code> , <code>&lt;ol&gt;</code> or <code>&lt;menu&gt;</code> parent elements.	▼
--	---

These are opportunities to improve the experience of reading tabular or list data using assistive technology, like a screen reader.

NAVIGATION

<div><div></div></div> Heading elements are not in a sequentially-descending order	▼
--	---

These are opportunities to improve keyboard navigation in your application.

ADDITIONAL ITEMS TO MANUALLY CHECK (10) Show

These items address areas which an automated testing tool cannot cover. Learn more in our guide on [conducting an accessibility review](#).

## SEO

These checks ensure that your page is following basic search engine optimization advice. There are many additional factors Lighthouse does not score here that may affect your search ranking, including performance on [Core Web Vitals](#). [Learn more about Google Search Essentials](#).

### CONTENT BEST PRACTICES

Document does not have a meta description	
---	--

Format your HTML in a way that enables crawlers to better understand your app’s content.

ADDITIONAL ITEMS TO MANUALLY CHECK (1) Show

Run these additional validators on your site to check additional SEO best practices.
